

Update on opening day alumni processional - Don Ford

## PROCESSIONAL

A Task Force or existing committee or liaison needs to be identified to pursue the idea and feasibility with Ruth Medsker, Principal Designee of the New LHS. If it is a go, then I'm sure that LLAA will work with school personnel to flush out details needed to execute the concept. Jeff and I only put forth some basic ideas in our original proposal (you should have a copy)

Some of the principals would include, LHS, LLAA, SPD, SSD, and the Mayor's Office and TV Stations as well as interested community groups.

I assumed the event would be the opening day of school with staging areas set up for grades 9 and 10 in parking lot. One grade entering the west entrance on Interlake Ave N.) from the north and one grade entering the west entrance from the south and the processional would commence when the first bell rang (meaning there would be a shortened class schedule to accommodate this event).

Let the creative juices flow to fill in remaining spectacular details that will be remembered in memory and on film. This is a BIG EVENT!!!!
